The overwhelming consensus among the country’s leading and most respected child welfare, social service, behavioral and medical health, and legal organizations is that lesbian, gay, bisexual, transgender and questioning (LGBTQ) youth and adults deserve respect and support from professional service providers. The following policies and position statements are based upon decades of peer-reviewed and published research and subject matter expertise. The child welfare community, which includes representatives from all of these organizations, should reflect the shared professional opinion that mistreatment of LGBTQ individuals is unacceptable, and should adhere to best practice standards.

AMERICAN ACADEMY OF CHILD & ADOLESCENT PSYCHIATRY
“There is no credible evidence that shows that a parent’s sexual orientation or gender identity will adversely affect the development of the child. [LGBT] individuals historically have faced more rigorous scrutiny than heterosexual people regarding their rights to be or become parents. The American Academy of Child & Adolescent Psychiatry opposes any discrimination based on sexual orientation or gender identity against individuals in regard to their rights as custodial, foster, or adoptive parents.”

AMERICAN ACADEMY OF FAMILY PHYSICIANS
“The AAFP opposes all discrimination in any form, including but not limited to, that on the basis of actual or perceived…sexual orientation [or] gender identity.”

“Family physicians are in an ideal position to be aware that their adolescent patients may be dealing with issues of sexual identity or orientation that impact their psychosocial and physical health. Asking open questions about sexual identity and orientation can open a dialogue on family relationships, safe sexual practices, suicide risks and other issues confronting gay, lesbian, bisexual, transgendered and questioning adolescents in a sensitive and accepting atmosphere.”

AMERICAN ACADEMY OF PEDIATRICS
“The AAP reaffirms the physician’s responsibility to provide comprehensive health care and guidance in a safe and supportive environment for all adolescents, including nonheterosexual adolescents and young people struggling with issues of sexual orientation.”

Barbara M. Frankowski & Committee on Adolescence, Am. Acad. of Pediatrics,
“Every child deserves a permanent home and all the love and care that good parents can provide. Prospective foster and adoptive parents should be evaluated on the basis of their individual character and ability to parent, not on their sexual orientation, and courts should grant adoptions when they are determined to be in the child’s best interest.”

**AMERICAN COUNSELING ASSOCIATION**

“The American Counseling Association strongly encourages counselors to actively participate in the elimination of all discrimination based on sexual orientation in matters of adoption, child custody and visitation, foster care, and reproductive health services in their practice, research, education and training.”

“The belief that same-sex attraction and behavior is abnormal and in need of treatment is in opposition to the position taken by national mental health organizations, including ACA… The Committee members agree that counselors who offer conversion therapy are providing ‘treatment that has no empirical or scientific foundation.’”

**AMERICAN MEDICAL ASSOCIATION**

“The AMA reaffirms its long-standing policy that there is no basis for the denial to any human being of equal rights, privileges, and responsibilities commensurate with his or her individual capabilities and ethical character because of an individual’s sex, sexual orientation, gender, gender identity, or transgender status.”

“AMA…opposes the use of ‘reparative’ or ‘conversion’ therapy that is based upon the assumption that homosexuality per se is a mental disorder or based upon the a priori assumption that the patient should change his/her homosexual orientation.”

“AMA support[s] public and private health insurance coverage for treatment of gender identity disorder as recommended by the patient’s physician.”

**AMERICAN PSYCHIATRIC ASSOCIATION**

“APA affirms its 1973 position that homosexuality per se is not a diagnosable mental disorder. Recent publicized efforts to repathologize homosexuality by claiming that it can be cured are often guided not by rigorous scientific or psychiatric research, but sometimes by religious and political forces opposed to full civil rights for gay men and lesbians… In the last four decades, ‘reparative’ therapists have not produced any rigorous scientific research to substantiate their claims of cure. Until there is such research available, APA recommends that ethical practitioners refrain from attempts to change individuals’ sexual orientation, keeping in mind the medical dictum to First, do no harm.”

“[T]he American Psychiatric Association…[s]upports laws that protect the civil rights of transgender and gender variant individuals…[u]rges the repeal of laws and policies that discriminate against transgender and gender variant individuals…[o]pposes all public and private discrimination against transgender and gender variant individuals in such areas as health care, employment, housing, public accommodation, education, and licensing…[a]nd [d]eclares that no burden of proof of such judgment, capacity, or reliability shall be placed upon these individuals greater than that imposed on any other persons.”

Jack Drescher & Ellen Haller, APA Caucus of Lesbian, Gay & Bisexual Psychiatrists, Am. Psychiatric Ass’n, **Position Statement on Discrimination Against Transgender**
CHILD WELFARE LEAGUE OF AMERICA

“Based on more than three decades of social science research and our 85 years of service to millions of families, CWLA believes that families with LGBTQ members deserve the same levels of support afforded other families. Any attempt to preclude or prevent gay, lesbian and bisexual individuals or couples from parenting, based solely on their sexual orientation, is not in the best interest of children.”

“All applicants [for adoption] should be assessed on the basis of their abilities to successfully parent a child needing family membership and not on their…sexual orientation.”

“The family foster care agency should not reject foster parent applicants solely due to their…sexual orientation.”

EVAN B. DONALDSON ADOPTION INSTITUTE

“Research shows that children fare as well with gay and lesbian parents as those raised by heterosexuals. [S]tudies on children dating back 25 years conclude that children raised by gay and lesbian non-adoptive parents fare as well as those reared by heterosexual parents.”

“All adults should be evaluated and licensed as foster parents based on their capacity to provide nurturing support for children in foster care, rather than on their sexual orientation. Foster families should be chosen based on their ability to meet individual children’s needs. State child welfare policy should explicitly prohibit the exclusion of foster parent applicants solely on the basis of sexual orientation.”

NATIONAL ADOPTION CENTER

“We believe that every child has the right to a loving, nurturing and permanent family. Therefore, it is the policy of the National Adoption Center that no person should be denied consideration in the adoption process solely based on…sexual orientation[.]”

NATIONAL ASSOCIATION OF SCHOOL PSYCHOLOGISTS
“[NASP] supports that all youth have equal opportunities to participate in and benefit from educational and mental health services within schools regardless of sexual orientation, gender identity, or gender expression. Harassment, lack of equal support, and other discriminatory practices toward lesbian, gay, bisexual, transgender, and questioning (LGBTQ) youth violate their rights to receive equal educational opportunities… education and advocacy must be used to reduce discrimination and harassment against LGBTQ youth[.]

NATIONAL ASSOCIATION OF SOCIAL WORKERS
“NASW believes that same-gender sexual orientation should be afforded the same respect and rights as other-gender sexual orientation. NASW is committed to working toward the elimination of prejudice and discrimination based on sexual orientation, both inside and outside of the profession… NASW supports antidiscrimination legislation at the national, state, and local levels. NASW opposes laws that allow discrimination against lesbian, gay and bisexual people[.]

“NASW recognizes that there is considerable diversity in gender expression and identity among our population and believes that people of diverse gender—including those sometimes called ‘transgender’—should be afforded the same respect and rights as any other person. Discrimination and prejudice toward anyone are socially, emotionally, physically and economically damaging. A nonjudgmental attitude toward gender diversity enables social workers to provide maximum support and services to those whose gender departs from the expected norm. Social workers must encourage the development of supportive practice environments for those struggling with gender expression and identity issues, including both clients and colleagues.”

NATIONAL FOSTER PARENT ASSOCIATION
“[T]he National Foster Parent Association acknowledges gay, lesbian, bisexual, transgender and questioning youth are present in the foster care system and encourages and supports establishment of standards, policies and training programs for foster care providers and professionals based on non-discrimination principles and sensitivity to the sexual orientation of all foster children and youth.”

NORTH AMERICAN COUNCIL ON ADOPTABLE CHILDREN
“Children should not be denied a permanent family because of the sexual orientation of potential parents… NACAC believes children and youth in the foster care system who are… LGBTQ deserve loving and permanent families and should be afforded the same rights, services and protections as those who are heterosexual… Unfortunately, many LGBTQ youth are in care solely because of their family’s reaction to their sexual orientation or gender identity… The prejudice, family rejection, and mistreatment experienced by LGBTQ youth—or those who are perceived to be LGBTQ—have a tremendous negative impact… NACAC strongly opposes the use of conversion or so-called reparation services that are designed to involuntarily change the sexual orientation of youth.”

THE WORLD PROFESSIONAL ASSOCIATION FOR TRANSGENDER HEALTH
“The overall goal of the [Standards of Care for the Health of Transsexual, Transgender, and Gender Nonconforming People] is to provide clinical guidance for health professionals to assist transsexual, transgender, and gender nonconforming people with safe and effective pathways to achieving lasting personal comfort with their gendered selves, in order to maximize their overall health, psychological well-being, and self-fulfillment… Health is promoted through public policies and legal reforms that promote tolerance and equity for gender and sexual diversity and that eliminate prejudice, discrimination, and stigma. WPATH is committed to advocacy for these changes in public policies and legal reforms.”
